

California Masons

"Fifty Years of Masonry in California" is now indexed and ready to be searched. This partial collection of thousands of names covers all of California up to 1896. The majority of these records include early biographies with many names, dates, and birth records.

Society volunteers will do free look-ups of surnames; copies of records are \$5.00 donation each. Please use the e-mail address below and include "Masons" in the subject line.
