

Dump

An 1886 map shows this located on the Sierra Lumber Co. flume. The first unloading point established just east of Chico in the southwest corner of Sec. 17, T22N, R2E. It was also a precinct designation for 2nd District. In 1911 the polling place was at the Sierra Co. office and used by residents and the county as an address which was confusing, as there was another DUMP at Pentz at the same time. The official name was Oakvale.
