

Philbrook.

Philbrook Reservoir, maintained by Pacific Gas and Electric, is located in Lassen County in the Lassen National Forest. There are some cabins in the area but few full-time residents. It is in the "High Lakes" area 3.7 miles north east of Inskip, the last populated area on Skyway on the way north. Skyway joins the Humbug Summit road and then Philbrook road. Most of those now rarely traveled roads, were originally Stage roads carrying passengers from the lower mining communities to Butte Meadows, Chester and points north.
